ABOUT THE STATE.

Items of Interest Gleaned From Our Exchanges.

Mr. and Mrs. H. N. Turner and Miss Marion Fairbanks of St. Johnsbury, have returned home from a trip abroad.

Patrick Cox Windsor has filed a petition in bankruptcy. He has liabilities of \$306.50 and assets of \$10 of which \$50 is claimed exempt.

About 950,000 cans of corn and succotash were put up at the Westminster canning factory this season which was a very successful one.

The Lyndonville Village Improvement Society has arranged for a lecture course entertainment of six numbers for the coming season.

The condition of the Rt. Rev. Bishop Michael Michaud, who was stricken with acute indigestion in St. Johnsbury last week, is improving. Bishop Michaud suffered a slight relapse Tuesday but he rallied the following day.

The Peerless Manufacturing Co. of Newport, N. H., with a branch factory in Barreton, is looking for a site for the location of another branch of its business and may decide to locate in St. Johnsbury. The factory would employ about two hundred operators and would probably take fifty families into the town.

E. Kravase, a Hungarian janitor of the Rutland city hospital, was accused by two unknown men west of the covered bridge near Center Rutland Wednesday night about 10 o'clock, and only by running toward an electric light east of the bridge and yelling for help was able to free himself from them before they had separated him from his valables.

While excavating recently for the new bank building in Bethel, workmen came across, at a depth of six or eight feet, timbers and a large deposit of ashes. It is supposed that it was the site of a potash plant operated about one hundred years ago. The old debris speak of a potash plant in that vicinity. At that period the potash industry was a thriving business and carried on in many localities in that vicinity and the product was sent to the city markets.

The Middlebury Business Men's Association held a meeting recently to see if a canning industry could be established there. After some discussion a committee of twelve was appointed to see the raising of the money and several people freely signed the paper. The committee was also instructed to look further into the project and report to a future meeting. Papers have already been filed with the Peoria & Eastern Railway, the Big Four Railway, the Baltimore & Ohio Southwestern and the Baltimore & Ohio Railway on surveys, construction, maintenance and operation of the railroads within a radius of all first-class theatres and best shops.

APPOINTED CHIEF ENGINEER.

W. B. Pelan to Go to Philippine Railways Company.

W. B. Pelan, member of the American Society Civil Engineers, who resigned from the Alaskan Central Railroad September 1st, has been elected Vice President and Chief Engineer of the Philippine Railway Company. He selected Manila about November 1st to take charge of construction and other interests for the syndicate which is building railroads on the Island of Panay, Negros and Cebu. His address will be 53 Exchange Place, New York and Manila, P. I.

The survey of these roads was started about the middle of June, under the direction of Mr. E. Beard of J. G. White & Company, New York, who has the contract for the engineering and construction of these lines.

At the present time surveys have been completed for 60 miles on the Island of Panay, 50 miles on Negros and 50 miles on Cebu this being about one-half of the total mileage. Eight thousand tons of material have already been ordered, half of which is now on the way, via Suez to Manila. The entire system of Philippine Railways will represent an outlay

of \$10,000,000. The cost of the railway, which is to be built in six weeks, will be approximately \$100,000 per mile. The entire system of roads will be 1,000 miles long, between 50 and 100 miles apart. This is one of the best places in Vermont for keeping summer boarders, as it is very healthful and quiet. The climate is good, the air is pure, the water is clean, the people are friendly and the country is beautiful.

Accept no substitutes. "Destroy the germ, not the creature."

Sold by leading druggists. Send me samples for sample to the Herpilic Co., Flint, Mich.

Rickett & Wells, Special Agents.

Should Convince Even the Most Skeptical of Its Truth.

If there is the slightest doubt in the minds of any that Dardiflour germs do not exist, their belief is compelled by the fact that a rank infestation with the germs occurs in six weeks.

It must be apparent to any person therefore that the only prevention of blindness is the destruction of the germs which act is successfully accomplished in one hundred per cent of cases by the application of Newby's Herpilic.

Persons who are subject to the germ will cause blindness and can be cured with the same remedy—Newby's Herpilic.
